

our Plan of Action

Please study all of the enclosed information and follow the instructions closely so you can increase your chances of succeeding.

However, before you begin we highly recommend that you set a goal so you can track your progress. We recommend your first goal to be exactly the same as the amount of money that you will be spending on promoting your home based business. Example:

If you're on the \$25.00 monthly co-op, your goal would be to earn a \$25.00 commission check each month (for now). If you're on the \$49.00 Co-op then it should be \$49.00.

Even though this may not be a large goal, we know that those who (in the beginning of building their business) set high goals such as \$5,000 a month in 6 months, etc. usually get anxious, and quit before they even give themselves a chance to get started.

This is the **NUMBER ONE** cause of failure in Network-Marketing:

..... **IMPATIENCE!!!**

Avoid this attribute at **all costs** if you expect to succeed.

Once you achieve your first goal you should know this very simple and most important fact about building your business. Please imbed this thought in your mind:

"If I continue to promote my business every month the same way that I have in the past, I should be assured that my commission checks will continue to grow and grow."

THAT'S IT You have just confessed the very thought and action that **EVERY** highly successful network marketer lives by.

Let's leave you with this thought:

"There have been very few people that have made a fortune overnight, but there have been many many who have made a fortune over a period of time."

Now it's time to move on to How to build your business.

YOUR BREAK EVEN GOAL

Now it's time to set your **Break Even Goal**. Just roughly guess how much money you think you will be spending on promoting your business and make this your **first** goal. It doesn't have to be exactly to the penny and don't give yourself a deadline, just set a goal.

My Break Even Goal:

I want to earn a monthly commission check of: \$ _____

"I know and believe that if I continue to promote my business on a monthly basis I will reach this goal. I also know that if I reach my Break Even Goal and continue to promote my business my commission checks will also continue to grow and grow."

If you could personally speak to those who started from scratch on a limited budget, they would **all** tell you it took them **time** to build a group that was able to generate a very large commission check. Many times when the checks were small, most of them thought about quitting. Now they all say: **"Thank God I didn't give up, because I am earning more money than I ever dreamed of."**

Why are we encouraging you to "**Think Small**" rather than big (for the moment). It's simple. Statistics show that those who enter into Network-Marketing with the false thought that Network-Marketing is a "**get rich quick scheme**" or a "**pyramid scheme**" have the highest rate of failure. Why? Because Network-Marketing is neither.

The sooner you realize that Network-Marketing is a business and not a "**so called magical plan that allows you to talk to a few people, spend hardly any of your own money and before you know it you are earning ten's of thousands of dollars per month**" the better off you will be.

By all means Network-Marketing is a way to earn thousands of dollars per month on a limited budget, but not in a few months or so. In fact, those who believed this are the one's who have lost the most money. However, if you treat and promote your business as a business and wisely use your money to promote your business then your dream will come true. Above all..... **NEVER GIVE UP!!! Time and Patience** is your greatest asset for success. It's that simple.

In conclusion, we know that when you reach your **Break Even Goal** and continue to do the same things each and every month then **"The Sky is the Limit"**.

Now it's time to Think BIG:

My 1 Year Goal is to earn: \$ _____ per month. I reached this goal on: Date _____

My 2 Year Goal is to earn: \$ _____ per month I reached this goal on: Date _____

My 3 Year Goal is to earn: \$ _____ per month I reached this goal on: Date _____

My 5 Year Goal is to earn: \$ _____ per month I reached this goal on: Date _____

Keep these goals in a safe place and confess them **everyday** until you reach
